

**Engineer:** N/A **RE:** Addenda #2  
**# of Pages:** 67

1. Please confirm that DOB Expediting is a reimbursable cost. *Yes*
2. Is retro-commissioning part of our scope of work? *Yes. The original space was never commissioned upon construction completion. Commissioning will be required for the entire 42,000 sq ft space*
3. Is there a certificate of occupancy? The space either has a TCO or CO; the Base building is in the process of getting a CO for the entire building
4. Please confirm that pre-testing air flow and water flow measurements is a reimbursable cost. *Yes*
5. Is there an estimated construction budget for this project? *\$2.1-\$2.5 million, based on which recommendation. These numbers include design and commissioning but not Construction Management services*
6. Can we have a copy of the forensic engineering report? *Addenda #1*
7. Who completed the forensic engineering report? Are they allowed to submit for design services (this RFP)? *O'Dea Lynch Abbatista (OLA). Yes*
8. Item 5 under "General" on page 10 indicates that we must attend all meetings. Can the approximate number of anticipated meetings be quantified? Also, is the construction management team the same as the CM team that originally constructed the building? *For the Design Phase, the consultant should know how many design meetings are required with Owner to get to 100% Construction Documents. Construction meetings should be Bi Weekly when we start the project. The Owner is going out for RFP for a CM for this project.*
9. Item 12 under "Design Phase" on page 10; we assume that we will be responsible for filling of Design Drawings and that the Contractor will be responsible for all filings during Construction. Please confirm. *As per any building projects in NYC, the Designer will file whatever permits are required of them and the Contractor will file whatever permits are required of them.*

10. Item 14 under "Design Phase" on page 10; please explain "LEED® Alteration Requirements" as USGBC does not have this category. *No LEED Alteration required*
11. Page 11 under "Implementation Plan" table says "Perform pre-testing TAB work"; did the forensic engineering perform pre-testing TAB work? Should we assume that BPCA will engage the TAB firm directly for any additional testing which might be required? *OLA did not, the TAB shall be included in this contract*
12. Page 11, under Implementation Plan table, "Winter/Spring 2014"; can you please explain what is required for a new FAI ventilation system for AHU 1, 2, 3, 4 and 5? *See report as part of Addenda #1*
13. Page 11, under Implementation Plan table, "Summer 2014": what does "Add RCPs" mean? *Radiant Ceiling Panels*
14. Page 11, under Implementation Plan table; please confirm that the selected consultant is to provide full retro-commissioning of all building HVAC systems after remedial work is complete. Yes
15. Are we to include fees from subconsultants in our proposal (i.e., architectural, structural, cost estimating, DOB expediting, etc.)? For example, if we have to include the services of an architectural subconsultant, what is their scope of work? The same goes for most other subconsultants. Yes
16. Exhibit E: please confirm that hourly rates are to include direct payroll burden only and that the "Project Multiplier" is our Overhead Multiplier. Yes
17. There is a Forensic Report mentioned in the RFP. How do we get a copy of it?

By signing the line below, I am acknowledging that all pages of the addenda has been received reviewed and understood, and will be incorporated into the bid price submitted. This document must be attached to the proposal for consideration.
